**QUALIFYING PETROLEUM MEASUREMENT KNOWLEDGE  
WITH **SGS ONLINE INTERACTIVE TRAINING****

# ONLINE TRAINING

## AND QUALIFYING FOR THE PETROLEUM INDUSTRY

SGS and IDESS Interactive Technologies have combined their expertise to provide interactive online training in the field of petroleum measurement. Consisting of seven modules, the training covers:

- Safety
- Sampling
- Static Tank Gauging
- Temperature Determination
- Verification of Pipeline Fullness
- Wall Wash Test Procedures
- Calculation Procedures

The training is customisable and allows participants to choose the sections or elements they wish to learn more about, or simply complete the full training. Furthermore it is accessible from anywhere with an Internet connection and participants can go at their own speed and fit the training into their schedule and repeat the modules as often as they wish.

The training is ideal for those working as:

- Refinery and terminal measurement personnel;
- Commodities traders;
- Lawyers with a practice covering petroleum logistics;
- Ship crews; and
- Ship managers and operators.

The benefits of the training are many. Among them, it lets participants appreciate the physical realities of how petroleum is measured, bringing the ship and terminal to the desk, thereby helping participants to manage risk more effectively. The training is also another way to demonstrate due diligence in these areas to internal and external compliance authorities.

### WHY SGS?

SGS is the world's leading inspection, verification, testing and certification company. Recognised as the global benchmark for quality and integrity, we employ over 64 000 people and operate a network of more than 1 250 offices and laboratories around the world.

We are constantly looking beyond customers' and society's expectations in order to deliver market leading services wherever they are needed.

We provide innovative services and solutions for every part of the oil, gas and chemicals industry. Our global network of offices and laboratories and our dedicated team allow us to respond to your needs, when and where they occur. Our reputation for independence, excellence and innovation have established us as the market leaders in providing services that improve efficiency, reduce risk and deliver competitive advantage for you.

### WHY IDESS?

Established in Norway and Sweden, IDESS has provided specialised training services to the shipping and offshore oil and gas industries for nearly 20 years. Part of the IDESS group, IDESS Interactive Technologies is dedicated to developing innovative training methods, and has a proven track record in transferring knowledge and skill to their client's personnel, through cost effective computer based learning programs that deliver measurable results. IDESS Interactive Technologies has earned a reputation for excellence that is recognised around the world, providing competency assurance aligned to their clients' business goals and objectives.
