SGS AUSTRALIA - LABORATORY SERVICES - FOOD CAPABILITIES

WHEN YOU NEED TO BE SURE

SGS

WHEN YOU NEED TO **BE SURE**

SGS is the world's leading inspection, verification, testing and certification company and is recognised as the global benchmark for quality and integrity. Providing services across a range of industries from agriculture to automotive, food to forestry our specialists are trained to deliver solutions to reduce risk and ensure the safety and compliance of our customer's products across supply and value chains.

Quality expectations and the range of legislative requirements that clients are facing and must satisfy are becoming more complex each day. To meet these needs SGS's Food & Agricultural testing laboratory can assist manufacturers, importers, exporters and retailers, as well as the rural sector by providing a comprehensive range of analytical testing services.

SOLUTIONS

This complete solution provides an unrivalled paddock to plate solution and can be tailored to meet your requirements.

OUR SERVICES

Our services as detailed include:

- Microbiological and Molecular Testing
- Food Allergens
- Mycotoxins
- Food Chemical Testing
- Heavy Metal and Toxic Elements
- Nutritional Testing / Food Composition
- Nutritional Panel Labelling and Advice
- Fat & Oil Testing
- Pesticide Residue Testing
- Plant Analysis
- Fertilizer and Biosolids Analysis
- Soil Analysis
- Stock Feed Analysis
- Water Analysis (domestic, agricultural and environmental)
- Sowing Seed & Sprouting
- Pulse and Oilseeds Analysis
- Qualitative and Quantitative GMO analysis

OUR LABORATORIES

Our laboratories are equipped with state of the art laboratory equipment including ICP/MS, HPLC, LC/MS, LC/MS/MS, GC/MS, RealTime PCR and other instrumentation that supports clients analytical testing requirements, whether they be raw inputs or finished products. SGS laboratories also focus on developing and maintaining Quality Assurance and Quality Control (QA/QC) as Good Professional Practice and have National Association of Testing Authority (NATA) accreditation to ISO 17025 and ISO 9001. SGS laboratories are always increasing the scope of their capabilities and accreditations, so if the test you require is not in the enclosed, please contact us to discuss your requirements. With sample delivery and despatch locations in strategic locations across the country SGS can provide the complete analytical testing package to meet your requirements.

Whilst SGS endeavours to meet or surpass its stated turn around times (TAT) situations may occur that may prevent these being met. Shorter TAT's can also be achieved through direct negotiations with the laboratory.

All analysis over \$500 is to be formulated in a quotation to ensure that customer expectations are clearly defined. SGS may also need to outsource specific tests on a needs basis. This will be communicated to the customer on the laboratory report as per the NATA out sourcing requirements.

DISCLAIMER

Whilst SGS in most cases meets or surpasses the stated TAT's situations may occur that may prevent these being met. SGS bears no liability for damages associated with the delay or inaccuracy associated with the reporting of results.
